

## Sushi Social™

Create delicious gourmet sushi with no recipes, and no kitchen by signing up for our newest & significant team-building exercise! Impossible as it may seem, it's true that you can enjoy a unique bonding experience with your conference attendees.

- Sushi Team Building: 2 to 3 Hours
- Group Size: 12 to 600 Participants
- Location: Virtually Anywhere!
  - Hotels & Resort Ballrooms
  - Conference Center Rooms
  - On-Campus Corporate Cafes
  - Dining & Training Rooms
- Background Environment: **CEO Chef's** Customized Music Playlist
- Team Outcome: Passed Platters of Gourmet Sushi

- **Fun** is the secret weapon to our process for your team's transformation. Even though we take your team building program very seriously, we know that by creating an environment of fun, your group will open up to new ideas and feelings about the people that they work with in a very short amount of time. So think of it as fun with a purpose!

- **Food and cooking** is the common denominator in bringing your group together. We recognize the power of using food and cooking within all of our team building workshop experiences as the key process to gaining quick rapport and **accelerate** your **team bonding** process.

- Because our programs are created by a **celebrity Chef** with an extensive corporate **training background**, we are able to focus on your specific training outcomes to **customize** your group's individual program while your team focuses of their more immediate outcome, to enjoy a delicious meal that they create from scratch!

- Our goal for your group is to **create** delicious, attendee passed **gourmet sushi**, without recipes, without a kitchen, with minimal culinary training and done in a limited amount of time, as a way for your team to intimately get to know each other and to experience the feeling of success that **world class teams** feel.

***"For organizations that may be on the fence about using your services...I am recommending your services for organizations that want to see their staff work as a team...Our group has listened to every type of motivational or management speaker on the market. Your service brings a huge breath of fresh air to the training arena."***

- Your whole program is **orchestrated** around your conference or meeting **schedule** so that your group first experiences a fun, action-packed team cooking process, along with an incredible (as well as delicious) team outcome that incorporates a passive **team bonding** process, then tied together with a **powerful message** shared through your individual team debriefs and reiterated by your CEO Chef facilitator. So the transformation that your **team "feels"** during the action process is brought to light and understood consciously by the conclusion of your program with your lead trainer asking the most important question of the day...

- *"If you can do this cooking team building exercise with all the success you've enjoyed and will all the challenges that could have held you back; what can you do as a collective team back in your own work life?" Of course, the answer resonates within everyone: **"Anything!"***

- Sushi Social™ incorporates **more senses** that any other team training program available. And by using more of our senses, we are able to more effectively **anchor-in** these important **message** of team that are triggered and used back at your workplace.

Besides the obvious visual senses within our programs, we are able to incorporate the sense of **taste and smell** (some say the most powerful of all the senses) through the use of food. And with the addition our customized CEO Chef playlist, a linking of powerful auditory **background music** completes the training and fun environment.

***"The CEO Chef activity was a HUGE success! People couldn't stop talking about it...Thanks so much for your flexibility and help. Our teams are much better for the exercise and I was amazed at how much it loosened everyone up and took us to a new level in terms of openness with one another. Thank you for everything!"***
